

Only the bosses fuck with the bosses  
These niggas are hatin', these bitches are loving the flossing  
I'm counting up money, it's war ting, yeah bitch I'm balling  
I went from pushing bread and bikes, now I'm pushing foreigners  
Them horses under those Porches

All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in  
All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in

I'm winning every week, I'm on a winning streak  
I've been getting money while you've been asleep  
Counting up this money, smokin' Cali while I'm sipping on this Hennessy  
My and dirty money's got a chemistry  
I had to leave all the losses behind 'cause they were fucking up my energy  
I'm running down this money like my enemy  
And plus I been investing in some properties and building up my legacy  
Niggas got the sauce, I got the recipe  
Niggas think they're soldiers  
Cause they sold a couple ounces on their Nokia  
I was strapping way before they ever made it popular  
Used to duck and dive from officers  
And now I'm brushing shoulders with some bosses  
And all we talk about is profits

Only the bosses fuck with the bosses  
These niggas are hatin', these bitches are loving the flossing  
I'm counting up money, it's war ting, yeah bitch I'm balling  
I went from pushing bread and bikes, now I'm pushing foreigners  
Them horses under those Porches

All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in  
All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in

I'm pulling up in Germans at the traffic light  
Came from shifting gears on my peddle bike  
When from catching busses  
Now I'm getting navigation from the satellite  
Really live my life in Gangsta Paradise  
Until the day they burry me  
I never follow fashion I just follow vibes  
Born to be a star, I wasn't born to be no normal guy  
I'm bililin' Kanye in the morning like it's exercise  
Future's lookin' bright but the feds are tryna jeopardize  
My eyes are on the prize, I'm full focused  
And all my niggas do win, you can't be actin' like you didn't notice

I'm in the RAF drivin' under stars  
I've got a meeting in shot  
With money man who only smokes cigars

Only the bosses fuck with the bosses  
These niggas are hatin', these bitches are loving the flossing  
I'm counting up money, it's war ting, yeah bitch I'm balling  
I went from pushing bread and bikes, now I'm pushing foreigners  
Them horses under those Porches

All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in  
All I do is win win  
All I do is win win  
All I do is win win  
All my niggas going in
