

Enemies

Skrapz

I wake up and tell em I'm smokin' the loud
They hatin' on me then
They hatin' on me now, yeah

Cause I don't fuck with them guys, no way
Cause they be fuckin' with my energy
And I don't fuck with them guys no way
Cause they be fuckin' with the enemy, nah nah nah nah
Cause they just wanna see the end of me
So I don't wanna see 'em near me, nah
Cause they be fuckin' with my energy
And they be fuckin' with the enemy

Boom, someone tell 'em that the fun and games is all over
They got me feeling' like there's no one in my lane
It's like I'm driving on the hard shoulder
I'm getting' money, they just getting' older
These niggas sitting' in the same position like they're doing' yoga
I'm in the Bimmer with the big revolver
Niggas dyin' for exposure till I turn them into fallen soldiers
Got me looking' in the mirror, feeling' like I'm chosen
My Cuban links are so froze you wouldn't know they're golden
They're tryna stunt me but I'm still in motion
These bitches wanna bust it open for the kid before we've even spoken
All this Cali's got me high but I stay focused
And I don't fuck with anybody that prevents progress
If I told you that I weren't the coldest
And I weren't ferocious
I'm bullshittin' and you niggas know this
I hope these niggas know that nuttin's goin' unnoticed
I start popping' out the bushes like some red roses

Cause I don't fuck with them guys, no way
Cause they be fuckin' with my energy
And I don't fuck with them guys no way
Cause they be fuckin' with the enemy, nah nah nah nah
Cause they just wanna see the end of me
So I don't wanna see 'em near me, nah
Cause they be fuckin' with my energy
And they be fuckin' with the enemy

I'm just tryna keep my head above the waters
I used to hustle on the corners
To secure a proper future for my 3 daughters
And every time I'm placing orders, gotta be cautious
Cuh my re-up's the equivalent of 2 Porsches
Niggas actin' like they gangsters
Till I pull up in the dinger, have 'em jumping' over fences like they race horses
You wouldn't think that I was tryna get my 2nd Mortgage
The way I'm always in these trackys and these Air Forces
In the kitchen with some big portions
I send them out to go collect it on the day that it gets imported
These niggas say they gettin' money but it's hard to call it
I've never been in a position where I can't afford it
I make paper and I make choices
I touch the road, turn these niggas into ghosts like the Rolls-Royces

Nuttin's changed, still catch me with the same faces
Trapping' in with semi-automatics when we're going' places

Cause I don't fuck with them guys, no way
Cause they be fuckin' with my energy
And I don't fuck with them guys no way
Cause they be fuckin' with the enemy, nah nah nah nah
Cause they just wanna see the end of me
So I don't wanna see 'em near me, nah
Cause they be fuckin' with my energy
And they be fuckin' with the enemy

I start poppin' out the bushes like some red roses
Turn these niggas into ghosts like the Rolls-Royces
I start poppin' out the bushes like some red roses
Turn these niggas into ghosts like the Rolls-Royces
