

Yo

I came up off the pavement tryna get my paper right  
What you know about them sleepless nights  
Yo my life's like a million piece puzzle I'm just tryna fit the pieces right  
Try and iron out the creases like  
And if I don't make bread how the hell I'm gonna eat tonight  
I think deep so I gotta keep weed alight  
Cause I really grind  
I can turn a mans flats into New Jack quicker than the speed of light  
Shades on true the futures bright  
All I need is a booth and mic  
All I need is a couple mill cash to make sure my yutes alright  
Everybody eats good when the fruits are right  
Everybody has dreams everybody wants P's  
But there's only a couple man that wanna work for it  
You can even ask God how I got where I got only he know I done a lot of dirt  
for it

Maybe they don't understand my life  
I'm in a different frame of mind  
I don't need know one else  
I can do it all by myself  
No matter how hard it is  
I try... I try  
Not matter how long it takes  
I try... I try

Yo

And if a nigga die young how you gonna tell my mumma don't cry for me  
That's why I always got gun and got knife on me  
Couple bruddas don't like me they try to bad mind me they wanna try put price on me  
Feds tryna put life on me  
No family no money no woman no ice for me  
That's not the life for me  
I want money cash P's so my whole family can live nicely  
Seriously nobody isn't near to me  
I got another 6 gears in me  
And I only fear God after him there's no fear in me  
I hope everybody out there (s) hearing me  
Everybody has dreams everybody wants P's  
But there's only a couple man that wanna work for it  
You can even ask God how I got where I got only he know I done a lot of dirt  
for it

Maybe they don't understand my life  
I'm in a different frame of mind  
I don't need know one else  
I can do it all by myself  
No matter how hard it is  
I try... I try  
Not matter how long it takes  
I try... I try

Maybe they don't understand my life  
I'm in a different frame of mind  
I don't need know one else

I can do it all by myself  
No matter how hard it is  
I try... I try  
Not matter how long it takes  
I try... I try
