

# In Da Streets

Skrapz

In da streets, they know my name  
Around the world, they know my name  
Started from the bottom yeah  
Now I've got the game on lock  
In da streets, they know my name

Boom!

I don't patiently wait I set pace  
I never put my money and grub in the same place  
I'm in a Fast and Furious race with no brakes  
My life is like a movie set daily, only thing is I only get one take  
So I ain't tryna make a mistake  
True I know the jakes wouldn't hesitate to fling me back in a cage  
It was just the other day I had a lucky escape  
They try gimme more years than my age  
Me and Nines got this on smash  
Niggas gassed till we see them in the flesh and make a body collapse  
Facts  
Big macs and rucksacks, I've always got a throw away phone I ain't easy to c  
ontact  
I wrap stacks into rubber bands  
And even though tomorrow isn't promised I include it in my plans  
From a little kid I've always been the man  
They knew my name in these streets way before I ever had a fan

In da streets, they know my name  
Around the world, they know my name  
Started from the bottom yeah  
Now I've got the game on lock  
In da streets, they know my name

This lil niggas think they're hard with nanks  
Acting like their money's long it's probably short like Carlton Banks  
I was stressed for a while, now baguettes in the dall, walk past bitches twi  
sting up their neck like an owl  
Came outta jail found out my guy was stealing shots  
Felt like Calvin cause I deal the block  
Always knew one day I'd rise to the top when I was whipping up anti-  
clockwise in the pot  
Picture me going broke I'm a hustle like Ace  
Me and Helmo got a G for every bump on your face  
Me and YD running through all these blondes  
Since school days I was cool like the fonz  
Would've made your toes curl if you felt the head  
I can't follow you back baby my girl's a fed  
Don't ask about my pendant you haters can't afford this  
I can go ham, pull my chain and get a mortgage  
It's Nines

In da streets, they know my name  
Around the world, they know my name  
Started from the bottom yeah  
Now I've got the game on lock  
In da streets, they know my name  
I'm the mo'fucking man  
I'm the mo'fucking man  
I'm the mo'fucking man

I'm the mo'fucking man  
I'm the mo'fucking man
