

Intro

Skrapz

Roll up some trees, pour some yak
Skrapz is back, motherfuckers
What you gon' do now?
They got me feeling like
I don't know, something like aged
Fight night, I love where I'm from
Just when everyone thought man was done, I'm not
Man is turned all around, you feel me?
Got man up against the ropes

I got the industry on edge
Plus I got the streets waiting in suspense
Somethin' like it's extra time and I'm stepping off the bench
I hear 'em saying that my niggas be the best
I keep a picture of my daughters on my phone
And that's my evidence, I'm blessed

And as long as a nigga's capable to breathe
All these visions that I've got up in my head
Believe I'm able to achieve
I'm tryna provide my family with everything they need
'Cause success only ever breeds jealousy and greed

And I've been in these streets since my teens
Selling food like the shops, never ever gave receipts to the fiends
Just to keep myself safe, I keep machines in my jeans
I've lost count how many times I've had to flee from the scene

The places that I've been and the things a nigga's seen
Now I'm shining like a star, all started as a dream
The way they roll behind me means I must be in the lead
It's like they never know that any game I play, I play for keeps

Everyday of my life
Everyday of my life
I keep going through this bullshit struggle
Everyday of my life
Everyday of my life
And all I do is spin keys and make P's
Everyday of my life
Everyday of my life
And all a nigga do is try and stay free
Everyday of my life
Everyday of my life

If I ever make mistakes, then I learn lessons
A nigga's had a lot of semi-automatics
But revolver's my preferred weapon
In a position just before second
The feds tryna shut me down but fuck them, I got the Lord's blessing

And I ain't looking any more Gretchen
To say say niggas in the same sentence, all we do is go get it
And I ain't never been apologetic
I've done dirt that I don't regret, all I do is try to forget it

And I ain't tolerating any disrespect

I never say I'm gonna do a thing and haven't did it yet
These niggas sweating, now they see me working with a pen again
And all the motherfuckers rather see me in the pen again

I need the haters for my motivation
These niggas don't know how it feels to be the topic of a conversation
I ain't never had it easy, it took hard work and dedication
A strong mind and determination

Everyday of my life
Everyday of my life
I keep going through this bullshit struggle
Everyday of my life
Everyday of my life
And all I do is spin keys and make P's
Everyday of my life
Everyday of my life
And all a nigga do is try and stay free
Everyday of my life
Everyday of my life
