

## Marathon Continues

Skrapz

Niggas thought that I was done, nah, here's another one  
Think I'm doing this for fun? Ha, pull the other one  
I'm in it for the long run like a marathon  
And I'm still in my prime like I work at Amazon  
You want me to carry on? Ha  
Think I'm doing this for fun? Ha  
I'm in it for the long run like a marathon  
I'm in it for the long run like a marathon (Boom)

I pull up in a fast car, Formula One  
And I ain't got the low spec, it's the other one  
I'm tryna make enough dough to buy my brother one  
And next year, I might go get a Cullinan  
You want me to carry on?

Vintage flow, yeah I got the sauvignon  
English grown but the cloth Italian  
Don't chat stats with me, that is not what man is on  
But three classic LP's, let's not get the tally wrong  
I don't pally-pally with dons that rank with Babylon  
It's kid shit if business ain't what you're standing on  
My foundations are cemented  
Top three and I ain't free, I'm fucking expensive  
I can make the money sit down, that money gets interest  
Some money gets spread out, some money gets invest  
Got the dargs round me, don't get a puppy offended  
Set price for intensive, where the duppy incentive?  
I got too much bread for them to catch us  
So cool, violate mate then it's summer, no June  
If any of my foes turn corpse  
This tune haffi get a pull-up in court, whoa  
Say mi step clean in my FB jawn  
Dem ah talk bout Bond but a man's more Bourne  
Think man ah frightened for old school fools  
When dem have likkle knife but still have no fork  
It's all taxes and brackets, the gap here is massive  
Facts versus capping, rap verse as captions  
They're mass manufactured and man's leaving match-fit  
But Skrapz stayed the maddest

Gyaldem alone might flood the Radisson

Let me carry on  
Niggas got a problem, I get my Dirty Harry on  
I'm like a Liverpudlian the way I never walk alone  
Two full clips called Sierra and Leone  
Shots to your dome like Henny and Patron  
Feeling like Michael Corleone  
LV head to toe but there's no logo

It's not my first rodeo  
My portfolio's from nineteen how-long, Don Julio  
If me and Kano's in the studio  
Then these rappers gonna need a funeral  
It's guaranteed to be a smash hit, anything I put my hands on  
Knock it out the park like a home-run
