

## Need A Break

Skrapz

I thank the Lord for the blessings from above  
And tell my fans I appreciate the love  
It wasn't easy coming up  
I done a lot of groundwork, it wasn't luck  
I really got it out the mud  
And even when the times got tough, I didn't budge  
When niggas didn't wanna rise up, I didn't judge  
All this blood, sweat and tears that I've shed over all of these years  
I could probably fill a bathtub  
I'm getting older plus wiser and smarter  
And I ain't tryna slow down, I go harder  
I'm dressed in Christian Dior from my head to my feet  
Cause I heard that the devil wears Prada  
I came home, people said I look marga  
A man said I look good, I said "Lava"  
All this drama in my life, I just take it in my stride  
More time cause it's probably just karma  
In jail, I found out I lost my father  
I broke down on the phone and started bawling  
I sat down on my bed, built a spliff  
Couldn't sleep then I tried to act normal in the morning  
I was banged up with Jazzy, that's my family  
I ain't even gotta talk, he understands me  
I had two jakes that was on my case  
Used to argue with each other like Monica and Brandy  
None of them wasn't tickling my fancy though  
And I don't wanna talk about that place no more  
All the time that I've wasted that can't be replaced  
All the memories that can't be erased, I think I need a break

Wait, wait, wait for me  
Don't run, don't up and leave  
Wherever you go, I wanna go  
Full security means you can call on me  
Wherever you go, I'm gonna go

I think I need a break from the jakes and the snakes and the court cases  
I'm tryna travel round the world so I can see places  
I used to take risks on a daily basis  
Gambling with freedom like the horse races  
And now I've made changes, I've got new arrangements  
Niggas try and draw me out, I don't entertain it  
This four-four bulldog, I don't need to train it  
I ain't never been the one to play with

No you ain't the same, I can feel the change  
Seen another side of you  
Name a time and place, know I'm on the way  
It's whatever you wanna do  
Have some faith in me, we all need somebody  
Wherever you go, I wanna go  
I wanna go wherever you want to  
I wanna go wherever you want to  
I wanna go wherever you want to  
I wanna go wherever you want to  
Life ain't fair and it's hard to define it  
Just gotta trust in the timing

But baby you shining  
Life ain't fair and it's hard to define it  
Just gotta trust in the timing  
But baby you shining
