Skrapz

BOOM!

Just before I was even a teenager  
I knew about the weed flavor  
I always had ambitions to be major  
And so a nigga decided to make paper  
And I was only 14 slangin' mersh in the playground  
I got jax's and tens where you going with your 3 pound  
And the playground was my ground  
Year 8 and I had to knock a year 9's teeth out  
Sitting on the bus with my tugz  
We was never downstairs at the top its just us  
We used to dream about being famous  
Sell my weed then I'm buying trainers  
Then I had to make a couple changes  
Had to reevaluate my actions  
I was hustling but feeling like I'm going backwards  
Had to stop wait pause freeze for minute  
I only get one life how am I gonna live it  
BOOM!

Ayo the game don't change but the players do  
Some players live life some play it cool  
Some players act smart some act so fool  
Certain players just ain't playing anything at all (Yeah, yeah)  
Ayo the game don't change but the players do  
Some players live life some play it cool

Certain players just ain't playing anything at all

Just before a nigga finished education  
A nigga saw a police station  
And I forgot to mention  
I used to kick ball coming from a generation  
Where every nigga thought really thought they was gonna make it  
Not me though I had to face it  
Finish training then I bill a spaceship  
Some will say that that's a talent wasted  
I guess them man there don't believe in fate  
Something you can't escape  
I used to sell grade and then I started selling class A  
You would think a nigga buss  
But spent alot'a money in a William hill  
I was fucking up my re up on a spin of a wheel  
Forget that that's a minor chapter  
Baby mother had a baby after  
That's when a nigga had to stop the laughter  
I was robbing I was shottin'  
And really moving like a multi-tasker  
Buying guns to prevent disaster  
BOOM!

Ayo the game don't change but the players do  
Some players live life some play it cool  
Some players act smart some act so fool  
Certain players just ain't playing anything at all (Yeah, yeah)

Ayo I'm missing out a lot of shit  
16 bought my first whip  
I thought I put it into 1st and reversed it  
18 bought my first stick  
Had to burst it in the park to make sure that it was working perfect  
22 I was in A benz  
Have you noticed how I'm skipping out the politics around the ends  
Cah I never been a news reporter  
Same time I got the benz had my second daughter (boom)  
One song ain't enough time  
I forgot to talk about the time I used to do grime  
All the different altercations with the one time  
And all the the holidays I been on in the sunshine  
Plus I done a lil jail time  
That was always on the cards till this day I still do crime  
Till this I still check me rear view and I always start to panic anytime I see blue lights  
BOOM!
