

They Ain't Ready

Skrapz

Boom I'm always stepping in designer clothes
See my shoes can't be talking bout what are those
I'm in the trap with a bag of o's
And I'm looking at my bag thinking everything's gotta go
And now I'm talking on the telephone
Got me sounding like I'm skeppy cuh I'm saying boy better know
That a boy better have my dough
And when I tell a boy come to the spot boy better show
I'm gonna bring my niggas with me anywhere I go
And everyday allot of cannabis a nigga blow
And everyday a niggas telling me I'm dope
Everyday I tell a nigga tell me something that I didn't know
And everything I done before is just a stepping stone
And now I'm here I'm gonna step on every bodies toes
Dope flows got a bag of those
And all them niggas bitches man will dagger those boom

Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust they ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man

Boom smoking weed to release the tension
Rappers put me in their bars I ain't tweeting bout seed or mention
Spitting lyrics in the free dimension
Someone tell the priminister I'm trapping I don't a pension
Hands on I don't need a benson
Been a star before I ever spat a bar I don't need attention
By the time I'm 30 I'm trying to cop the bentley
With the 20'' rims and a low suspension
Rappers give it all they got they ain't no progression
Me and ninas got the ball and we own possession
Studio sessions with the smith and western
All you do is press it you don't even need aggression
Used to tell my teacher I don't even need a lesson
Say a prayer before I sleep cause I need a blessing
Its big boy skrapz the one and only
Ice city everyday all them other niggas sound depressing

Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust they ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man

Boom I can't stop if I ain't started
I've always been a man to hit the target plus I'm clean hearted
I live life till I get departed and when I'm gone put it on my gravestone th
at I was the hardest
Always been a superstar kid so when I'm gone at the bottom of my grave put a
red carpet
All them niggas talk tough but they don't walk it
Ice city boys come to lock down the whole market
Boom eh yo I'm killing em I'm killing em I'm killing em I'm killing I'm kill
ing em again
The end of the beginning doesn't mean that its the end
Means about to talk the game to level 10
Means I'm bout to make the transition

Moving like I'm lewis hamilton on tracks up in pole position
Ask him who's the niggas on the block blasting
Ice city run the game by a long margin

Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust they ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man
Nah they ain't ready for man, trust me ain't ready for man
