

We Shine

Skrapz

Yo, I've been going so hard lately, I think a nigga need a holiday
I go on spend some drug money in a different currency
I live a luxury life
And most the times I just pick it up buy, And all them niggas have to
look at the price
Most of times I be dripping in ice
My Cubans got it's on mind it still dances when you lock off the lights
And the German that I drive it's like a house inside
I ain't never had a job baby I work supply
And I made my own future look bright
It's like my grind don't stop Sunday morning up to Saturday night Boom,
I'm either chilling with daughters or I'm doing mic check
Or I'm standing by the cooker gripping on the Pyrex
I cook whole pack with bicarb and bicep
How do you think I buy these German whips in the highest spec
There ain't no middle man in between the nect I'm direct
And he hasn't sent a flock of birds I couldn't fly yet

We shine, Even in the darkest times
24-7 we fly
Were just tryna live our life's, We shine
We grind, Even when they say it ain't right
24-7 we fly
Were just tryna live our life's, We shine

I'm to grown to be rapping bout a incident
That's true I know a lot of little niggas listen to my music and there
influenced
I believe in fate more than a coincidence
And I believe in heaven but I'm still committing sin
I'm jus tryna get it in
I close my eyes ask the father for forgiveness, I'm just hoping that
he's listening
I'm struggling to make the transition, one word that describes the way
I am is ambitious
My roley came with box and papers and plus stickers
Niggas tryna copy Skrapz but there times ticking
Catch me in the kitchen like I'm tryna fry chicken
And when I'm re-ing up It's like a suicide mission
Niggas wish me death bet there gonna die wishing
Catch me in VIP with Hennessy and fly bitches
You'll always see me posing in these pictures
Looking like the proper definition of a young rich nigga

We shine, Even in the darkest times
24-7 we fine
Were just tryna live our life, We shine
We grind, Even when they say it ain't right
24-7 we fine
Were just tryna live our life, We shine
