

Glory

Skrewdriver

Deutschland erwache!

It took us twelve hours since the journey began
Until we finally came to the Fatherland
Dortmund City was the rendezvous
Proud German comrades doing what they could do, and
now...

(chorus)

Bring back the glory of Deutschland
Bring back the glory of Deutschland

We travelled with comrades across the north
We went to do a concert for the people's cause

And now a thousand heart-beats beat as one
German-British friendship it will carry on

(chorus)

Über alles!

instrumental break

(chorus)

And then upon a tour of some German cities
The beer was strong and the girls were pretty
All our German comrades and all our friends
You can rest assured we will be back again
