Shining Down

Skrewdriver

Can you tell me why, so many days?
Spent in the rain, with so much pain
Why can't the sun, come breaking through?
Come shining down now, on me and you, yeah

(chorus)
Why can't the sun, come shining down?
Then we'll have won, no black clouds around

Too many hours, spent in the gloom
Watching visions of, impending doom
Get off your seats, and stand up straight
For you can control, your own fate

(chorus)

instrumental break

(chorus)

Then don't tell me, nothing can be done
With that attitude, nothing will be won
So we'll stand and fight, looking up to the sky
As we wait for light, it's either win or die, now

(chorus) x2

Come shining down
Come shining down
Come shining down
Come shining down on me
