Their Kingdom Will Fall

Skrewdriver

They came upon our people in the dead of the night
Death and destruction in the morning light
Jail for our fighters, bondage for the strong
They've had their own way for far too long

(chorus)
Their kingdom will fall
Their kingdom will fall

They put the people into debt and slavery
It's not the way a healthy nation should be
They censored what we said, they censored what we thought

But now is the time that we cannot be bought

(chorus)

instrumental break

(chorus)

They tried to put us on a highway to hell
But now we'll wake our people with the toll of the bell
Our land will be ours, our people will be free
Now we're on the road to recovery

(chorus) x2
