

Thunder In The Cities

Skrewdriver

We see corruption at all levels, we know the end is not
in sight
Our government is dealing with devil, they've set out to
sell out all Whites

(Chorus)

There's thunder in the cities, there's thunder in the
towns
There's thunder in the villages, as the walls come
tumbling down

We see our nation is declining, but people who are

Nationalists are few
Too many people are just whining in the wind, but from
small acorns mighty oaks grew

One day their evil will crumble, one day corruption will
crash down
Before our flags they will be humbled, from our mouths
will come the victory song
