

United

Skrewdriver

Look around, they're moving in
Move around, when they begin
You can do it, you can do it and if they wanna they can
try it
But they'll never get near, and they can get out of here
Gonna keep on trying, never stop

(chorus)

United, united, united we stand
United we never shall fall
United, united, united we stand

United we stand one and all

Give me hope, don't give in
Don't give up, we're gonna win
You can do it, you can do it, and if they wanna they can
try it
But they'll never get near, and they can get out of here
Gonna keep on trying, never stop

(chorus) to fade
