

# Vampire

Skrewdriver

So many lies, until the day he died  
They say he passed on, and now your money's gone  
It was all show, and now we all know  
Yeah, nothing was the truth, lies mirrored his views

He was a vampire, living on another man  
He was a vampire, living on the blood of our land

European empire, built on lies  
We don't even know yet, if he acted as a spy  
He took away the dues, of the pensioners he mocked  
He took away their life's blood, and now they're all in  
hock

He was a vampire, living on another man  
He was a vampire, living on the blood of our land

instrumental break

He was a vampire, living on another man  
He was a vampire, living on the blood of our land

And now they say he's dead, but I am not too sure  
Buried on a mountain, the land must be impure  
If justice had been done, he'd be buried in the trash  
'Stead of living it up, on other people's cash

He was a vampire, living on another man  
He was a vampire, living on the blood of our land

He was a vampire, living on another man  
He was a vampire, living on the blood of our land

Living on the blood of our land  
Living on the blood of our land  
Living on the blood of our land
