

Real Spring

Skrillex

Real spring, beauty, you're so thin (It's crazy)
Girl, you rock my world, reality spins (Reality spins)
Life inside a prison
Stuck inside of bliss
Cross the rainbow bridge
Moment in the time, take over the night, SG fortified
Love redefined and it's something for the mind
Tryna see the light, this movie life I hit rewind

White light shines downwards, up in gold
Hawk flies low, strikes like my pose
Three stars dance over the globe
Life unfolds, faith comes unfroze
Somewhere over the rainbow, there's a story never told
Say no words baby, I know
Just let go, become your own
Just let go, become your own

(Life inside a prison)
(Stuck inside of bliss)
(Cross the rainbow bridge)
Life unfolds, faith comes unfroze

(Comes unfroze)
(Comes unfroze, real spring)

White light shines downwards, up in gold
Hawk flies low, strikes like my pose
Three stars dance over the globe
Life unfolds, faith comes unfroze
