

# Call It Like It Is

Skrizzly Adams

I don't wanna take it easy  
Can't remember all the wine we've spilled  
If there's a reason why the heart can't cry out  
Maybe that's why we can't sit still  
Don't tell me that you're chasing something  
Don't look at me in disbelief  
After midnight when you feel like running  
It sure ain't hard not to leave

All this wasted time  
All over who just crossed the line  
Both know that changing  
Won't change your mind  
That's why this happens  
All the time, just call it like it is

We could throw away the old forever  
Start another at the break of dawn  
I'm always looking out for something better  
Won't you tell me it's been right here all along

All this wasted time  
All over who just crossed the line  
Both know that changing  
Won't change your mind  
That's why this happens  
All the time, just call it like it is

When mistakes  
Come this late  
Shut the door  
Let me take you under  
Doesn't taste  
Quite the same  
When one of us gives up and surrenders  
I don't  
Know why  
We stay  
Caught up in the mess we make  
When we know  
We both  
Don't give a damn  
So just call it like it is

All this wasted time  
All over who just crossed the line  
Both know that changing  
Won't change your mind  
That's why this happens  
All the time, just call it like it is
