

# Short Hills Rd

Skrizzly Adams

Swore I couldn't live another day like that  
Desperation makes us do things  
Where we let go of the past to find new pains  
A woman asked, can we guess your name  
And you don't know what you'd be losing  
If you don't go take a chance on young Annie Mae

So red flags flew on short hills rd  
Moved my life in, to just let go  
Of the stones I broke when I was alone  
But I learned you never lose em anyway

Cause desperation does, what willing won't  
Takes you a little further down the road  
To make you do  
The things you don't  
Wanna have to battle on your own  
And it ain't right, it takes a toll  
Makes you a little stronger as you go  
Cause, desperation does, what willing won't

Started getting rough after three damn months  
But that's enough to see some healing  
I felt at home amongst the storm she kept at bay  
And after 6 more she swore she'd had enough  
I finally learned what'd I'd be losing  
When I went and lost my chance with Annie Mae

So red flags flew on short hills rd  
I just hung around, I didn't wanna go  
And we both knew we'd hate to be alone  
We were just counting down the days till

Desperation does, what willing won't  
Takes you a little further down the road  
To make you do  
The things you don't  
Wanna have to battle on your own  
It ain't right, it takes a toll  
Makes you a little stronger as you go  
Cause, desperation does, what willing won't

When she moved on my heart quickly restless  
Fading hopes that the lifeline would last  
A faded mind made me start to act reckless  
And I wish I could take it all back  
And it kills me to think that I worshiped  
A mirror that was destined to crack  
And I just can't stop thinking about her  
How she set me then knocked me off track when

When red flags flew on short hills rd  
Haven't been back, but I can't let go  
Of the time she stole, now that I'm alone  
But we both know it's better off that way cause

Desperation does, what willing won't

Takes you a little further down the road  
To make you do  
The things you don't  
Wanna have to battle on your own  
It ain't right, it takes a toll  
Makes you a little stronger as you go  
Cause, desperation does, what willing won't  
Desperation does, what willing won't

Swear I can't live another day like this  
Desperation made me do things  
So I wrote a song about the past to just let go
