

Whole Heart

Skrizzly Adams

Said I don't mind crying
If we both go south from here
Hard times keep trying me
Alone this time, I'm broken
I can't help me at all

Yeah, I'm feeling something
I just called to let you know
You ain't done with nothing
'Cause all I know, there's a feeling growing
And I can't stop till my whole heart's showing

Baby I wanna float down a river
Lose all control of the passing years
I wanna just get lost in the moment
'Cause all I know, there's a feeling growing
And I can't stop till my whole heart's showing

Till my whole heart's showing
Till my whole heart's showing

Call me tired and reckless
Say we all get weak
Even the blind expect this
Cry for help, it's a higher shelf
No, there's never in between

Yeah, my eyes are bloodshot
'Cause love let them bleed
And everything that went on
Just lets me know, there's a feeling growing
I can't stop till my whole heart's showing

Baby I wanna float down a river
Lose all control of the passing years
I wanna just get lost in the moment
'Cause all I know, there's a feeling growing
And I can't stop till my whole heart's showing

Till my whole heart's showing
Till my whole heart's showing
