

Long Live The Fist

Skull Fist

I gotta keep on moving
I gotta stay on track

Her lips are mighty cold
And if I stop ill never make it back
Oh no

The noose around my neck
Can you see me start to sweat
I said id make you pay
But you never believed id ever, get away (hear the sound)

Don't bring me down
I don't need a ride
To get around

I am gonna live forever
I will never surrender

And if I keep on losing
It'll always be this way
My face is getting old
But I know my soul will live another day (hear the sound)

Don't bring me down
I don't need a ride
To get around

I am gonna live forever
I will never surrender
I am gonna live forever
I will never surrender

Forever
