

Pass Through Me

Skullcrusher

Late at night
I hear a name I don't recognize
I'm in my bed, but it feels weird
Where is my body?

I see a face in the window watching me
I see a face in the window watching me

Take their hands
Press them into me and detach
They move straight through me, I look back
I see a window
I hear my name, but I don't recognize it

Pass through me
Pass through me
Pass through me
Pass through me
Pass through me
