

Defiance, Desperation, Defeat!!

Skullview

Defiance, desperation and defeat
Relentless attacks on a city under siege
Increasing the violence we altar the mood
Nightly waves of terror, traumatized
Fear of doom

You see their leader being taken away
Beaten and the bloodied shall become our pray
Anger exploited tear their weakened minds
As the sirens wail they are beaten from behind

Defiance, desperation and defeat
Relentless attacks on a city under siege
Increasing the violence we altar the mood
Nightly waves of terror, traumatized
Fear of doom

We offer the fury of mankind
Terrorizing anger burning up inside
Holding onto power, never letting go
Wiping out survival is what you've got to know
Take control
Sirens wail behind our swift attack
Code of honor, iron cross of black
We have come back

Defiance, desperation and defeat
Relentless attacks on a city under siege
Increasing the violence we altar the mood
Nightly waves of terror, traumatized
Fear of doom

We offer the fury of mankind
Terrorizing anger burning up inside
Holding onto power, never letting go
Wiping out survival is what you've got to know
Take control
Desperation, missile strikes
And air raids will never subside
Retaliation, marching through
The streets of eternal fire

You see their leader being taken away
Beaten and the bloodied shall become our pray
Anger exploited tear their weakened minds
As the sirens wail they are beaten from behind
