

## I'm Not Afraid

Skunk Anansie

Another useless fight  
saddened words ring true  
leaving like a saint  
still clouds follow you

I've seen behind your wall of words  
you are sneaky with the facts  
look who's hiding now  
now I've seen through cracks

Still I'm not afraid  
not so dead afraid  
no I'm not afraid  
now you've all the light

Beauty's all you are  
(we are) friends for days and eternal nights  
solid head four life  
craving all this might

Still I'm not afraid  
not so dead afraid  
no I'm not afraid  
now you've all the light

Now you've all the light  
still i feel you by my side (ooh)

Nothing's useless now,  
friends have always time to try  
the safest hands hold me  
now I wander far

Still I'm not afraid  
not so dead afraid  
no I'm not afraid  
now you've all the light
