

# Alaska

Sky Sailing

I was on the road  
Despite the holiday  
The wintergreen daydream softly collided  
And took all my headaches away

[Chorus:]

When did I arrive  
I don't recall ever leaving alaska  
Why do I hate the dark when I'm alone  
I was on my way  
To a brighter day  
I'm still chasing around  
But somehow I believe that this is home  
It's so good to be home

I was on the ground  
When I recalled the day  
That my discomposure left me forever  
And swept all my troubles away

[Chorus]
