

ALIVE

SkyDxdy

Fighting to the death, take a breath and it's gone
Feel it in my chest, it's a test, am I wrong?
No I can't be the only one to
Cross my heart and close my eyes
Never take a rest, I'm obsessed and I want
Hunger in my eyes, I'm possessed by the haunt
Always gonna be the only one to
Make this feeling come alive

Make the feeling come alive (yeah, yeah)
Make the feeling come alive (yeah, yeah)

You thought that you killed me but this is the scene where I resurrect
If you seek forgiveness you should shut your mouth and just save your breath
I'm your favorite deity, get on your knees and show me respect
And make me feel something

Make the feeling come alive (yeah, yeah)
Make the feeling come alive (yeah, yeah)
When you're standing on the edge and you're about to let go
You gotta pump the gas, time to hurry up now
Make the feeling come alive (yeah, yeah)

This ain't just some fairytale your mama read, you woke up the beast
Feeding time is here again so sacrifice yourself just for me
Answer to the calling of the fallen, let me see if it bleeds
Only here to haunt you and exhaust you, can't you see?

Make the feeling come alive
Make the feeling come alive
