

## Best Part Of The Story

SkyDxdy

Sick, of all these sleepless nights  
I'm under covers, right blue light, I'm not enough  
And I fight, with myself all the time  
The hole I dig is fine until I'm six feet underground

I see it now  
It took this long to figure out  
I see it now  
I'll see it through  
That's my oath

I can be my heroine, my champion, my only friend  
Don't wanna be the enemy no more  
My darkside, she strikes again  
She always comes to my defense  
So I don't ever have to worry  
It's the best part of the story

This is my apology to myself  
Always left you feeling let down  
I didn't know where it would lead  
I'll be in your corner, cheering you on  
Anywhere we go, I'll be at the front  
I'll be everything you need

I can be my heroine, my champion, my only friend  
Don't wanna be the enemy no more  
My darkside, she strikes again  
She always comes to my defense  
So I don't ever have to worry  
It's the best part of the story

Can we get to the good part?  
Life should never feel so hard  
Let's just get to the good part  
Life should never feel so, feel so

I can be my heroine, my champion, my only friend  
Don't wanna be the enemy no more  
My darkside, she strikes again  
She always comes to my defense  
So I don't ever have to worry  
It's the best part of the story

Can we get to the good part? (good part)  
Life should never feel so hard (feel so hard)  
Let's just get to the good part (good part)  
Life should never feel so, feel so hard
