

Crazy Side

SkyDxddy

We've all got our demons
But mine are the meanest
They won't let me get to close
To the ones I need the most

They're angry and violent
They're sure uninvited
So you better run away
For my demons come to play

I was a mental patient in my past life
Ask all my cell mates I know my way around a knife
So I know when to wait and I know when to strike and I know what its like to
never
Get a wink of sleep at night
These evil entities are seeping deep inside of me now
So it'd be better safer for us both if you just stepped the fuck down
But I can't persuade you to evade the beast
You poked him now he needs to feed
You asked for this
Now come and see
The crazy fucking side of me

This is so horrific
And its so ironic
Everything I never wanted
Fought it thought it through
Until I came to the conclusion
That there's just no gettin through
No use in, trying, crying, plead the fifth
Shit I'll be the only one to lose if I choose resist
So don't look in there direction
Just pretend they don't exist
And while you fade into oblivion
You can remain oblivious

We've all got our demons
But mine are the meanest
They won't let me get to close
To the ones I need the most
They're angry and violent
They're sure uninvited
So you better run away
Fore' my demons come to play

If I was you id take a couple steps back
I don't control the beast
So I don't know when he attacks

Its not my fault
If you're the one that got too close
If he decides to rip the skin off of your bones
And wear you like a coat

I think you'll find my other side is disturbed
Its got a long list of enemies and yo bitch ass is first
And your the one that brought this on

All of this is self inflicted
And you know you did me wrong
But you just love to play the victim

Look what you created
You thought I could take it
God were you mistaken
I think I am breaking

This is so horrific
And its so ironic
Everything I never wanted
Fought, thought it through until I came to the conclusion
That there's just no gettin through
No use in, trying, crying, plead the fifth
I'll be the only one to lose it if I choose resist
So don't look in there direction
Just pretend they don't exist
And while you fade into oblivion
We'll both remain oblivious
