

# God Of War

SkyDxddy

Damn, you act so brave until I'm callin' you out  
I cut your picture from the frame, you keep my name out your mouth  
You tell the world you learn your lesson now, but I got my doubts  
They keep on bringing me up, I keep on smacking down

Ey, call me a psycho, I'm cynical, say that the damage is minimal  
You sound so pitiful, all of your shit talk is digital  
Baby, you got it predictable  
I'll burn it down like a ritual, rah  
Grab me some matches, I'm going batshit  
Just let it die, I'm closing the casket

Hate me  
Go ahead and hate me  
You think you can break me down?  
Down to my core?  
Imposters making me a monster  
Time to bloody up my sword  
Like the God of War  
You're makin' me, you're makin' me  
The God of War  
You're makin' me, you're makin' me  
The God of

I'm sick of people that take what they want and then spit in my face  
I'm done wishin' that people were different and givin' them chances just hop  
in' they'll change  
I put my life on the line every day for my friends just to realize that most  
of them fake  
I'm sick of keeping the rest of ya warm as you leave me alone here to die in  
the flames  
And I ain't never gonna beg for you  
Better get it through your head, bitch, I'm bulletproof  
I've been doing this on god mode, do it with my eyes closed  
I'ma wish for peace but be ready for war  
Never forget who I'm fighting for  
It's the final battle and I wrote the score  
If you're the final boss I've been training for  
I'ma kill a bitch quick, I can taste the gore like ah (Ah)

Hate me  
Go ahead and hate me  
You think you can break me down?  
Down to my core?  
Imposters making me a monster  
Time to bloody up my sword  
Like the God of War  
You're makin' me, you're makin' me  
The God of War  
You're makin' me, you're makin' me  
The God of

Can you feel the earth, she's rumbling?  
Same me from this hell I'm livin' in  
Embers nippin' at my skin again  
Oh, woah, oh, woah  
Can you feel the earth she's rumbling?

Same me from this hell I'm livin' in  
Embers nippin' at my skin again  
Woah-oh-oh-oh-oh

Hate me  
Go ahead and hate me  
You think you can break me down?  
Down to my core?  
Imposters making me a monster  
Time to bloody up my sword  
Like the God of War
