

# Monsterpiece

SkyDxdy

They want a monster so I sharpen my fangs  
On the brittle little bones of pretty young things  
But the bones give me something that get stuck in my teeth  
I can feel my inner demons begging to be released  
It's real It's deep  
It's all that I envisioned unleashed  
It's dark It's sweet  
It's what everybody in this world needs

I don't fuck with fake tits  
And I love a cute little booty  
Picture perfect people piss me off  
They're usually pretty snooty  
Oh do looks still matter  
Cake faced practically plastered  
Piece by piece with correct precision  
You won't feel a thing we'll start with a small incision  
Calm down this is a good decision  
We'll go on in and make a few revisions here and there and  
Oh Em Gee Its a new me  
Yeah you once was a queen  
But now I think you should sue  
Fell for a dude that didn't fall for you  
Let vanity fuck up your views  
Come some bitch couldn't see that beauty in you  
Worship sex robots  
Like that shits so hot  
But the ones giving bitches bad names are called thots  
And sex sells cause we supply it  
If we don't give it then they can't buy it  
Man haters hate cause we living life  
She talks so much shit that's not right  
Yeah I know this is pretty low  
But it's sad as fuck  
When boy meets girl and just expects dumb hoe

I can hear it now women in the crowd saying  
This is such a bad message  
She should know better  
If I was any sicker I'd be Hannibal Lector  
But I murder the bad guys  
A modern day Dexter  
Ima let you reflect  
But don't waste my time  
You can scream all you want  
But face it you're mine

They want a monster so I sharpen my fangs  
On the brittle little bones of pretty young things  
But the bones give me something that get stuck in my teeth  
I can feel my inner demons begging to be released  
It's real Its deep  
It's all that I envisioned unleashed  
It's dark Its sweet  
It's what everybody in this world needs
