

Sirens

SkyDxddy

Hear the siren sounds
They're getting louder everyday
And the guns are firing now
They wanna keep us in our place
But if we learned anything from our mothers
We must protect our daughters from the others

Dark shadows creepin' in
Feels like we're leaning towards the end
Post apocalyptic world
A hell on earth for all our girls

So grab your weapons and join me on the front line
If it's a war they want then they don't need to ask twice

I know you're not gonna listen when I tell you behave
So if you put your hands on me I'm gon' be diggin' your grave
Don't try to put the blame on me for the way that boy was raised
He'll try to bend and fuck you over then say "that girl's insane"

Hear the siren sounds
They're getting louder everyday
And the guns are firing now
They wanna keep us in our place
But if we learned anything from our mothers
We must protect our daughters from the others

Dark shadows creepin' in
Feels like we're leaning towards the end
Post apocalyptic world
A hell on earth for all our girls

What part of "no" motherfucker don't you get?
What do I gotta do for you to fuckin' let me exist?
Why did I ever go through life thinkin' I could be nice?
When every dog I ever met just decided to bite
And had a sickening appetite for attacking at night
And squeezing necks real tight
Must make them feel nice
Must make them feel big
Must be them overcompensating for their tiny-

Grab your blades and grab your chains
Time for them to see the mess they made
Make them all get on their knees
And then say "baby, smile for me"

Come on, you can do better than that
You're so much prettier when you smile
Do I have to make you?

I know you're not gonna listen when I tell you behave
So if you put your hands on me I'm gon' be diggin' your grave
Don't try to put the blame on me for the way that boy was raised
He'll try to bend and fuck you over then say "that girl's insane"

If it's a war they want

Then it's a war they'll get
If it's a war they want
Then it's a war they'll get
If it's a war they want
Then it's a war they'll get
If it's a war they want
Then it's a war they'll get

Hear the siren sounds
They're getting louder everyday
And the guns are firing now
They wanna keep us in our place
But if we learned anything from our mothers
We must protect our daughters from the others

Dark shadows creepin' in
Feels like we're leaning towards the end
Post apocalyptic world
A hell on earth for all our girls
