

Ashes (Keep On Going)

Skye Sweetnam

Whoa

Knowing that we're broken in our ways
And we know our sins can't be erased
I'll keep on going, keep on going
Even if it's going through hell with you

I don't have the answer, I can't find a way
I messed up the words that you want me to say
I lost every penny you asked me to save
And now I feel stuck with one foot in the grave

I'm like (whoa)
Give me a reason for now (whoa)
This weight is pulling me down (whoa)
Just need a reason for now

Knowing that we're broken in our ways
And we know our sins can't be erased
I'll keep on going, keep on going
Even if it's going through hell with you
I can see the sun can't light the shade
Doesn't mean our flames can't burn the page
I'll keep on going, keep on going
Even if it's going through hell with you

If you ashes and it's time to burn
These lights be flashing, now you got to earn
Stay for the lesson if you wanna learn
Nobody knows if it ain't your turn

(Whoa)
Give me a reason for now (whoa)
This weight is pulling me down (whoa)
Just need a reason for now

Knowing that we're broken in our ways
And we know our sins can't be erased
I'll keep on going, keep on going
Even if it's going through hell with you
I can see the sun can't light the shade
Doesn't mean our flames can't burn the page
I'll keep on going, keep on going
Even if it's going through hell with you

And I know we're not perfect
And its flaws reveal the truth
Yes I know that it's worth it
Everything that we've been through
All the rain, the joy and the pain
Each day after day, we're here and that's the proof
And I'd rather walk through flames
Than go on without you

Knowing that we're broken in our ways
And we know our sins can't be erased
I'll keep on going, keep on going

Even if it's going through hell with you
I can see the sun can't light the shade
Doesn't mean our flames can't burn the page
I'll keep on going, keep on going
Even if it's going through hell with you

Knowing that we're broken in our ways
I'll keep on going, keep on going
Even if it's going through hell with you
I can see the sun can't light the shade
I'll keep on going, keep on going
Even if it's going through hell with you
