

Little Bit Lost

Skye

Trying to figure it out and find a way but to now
But how, if I turn me round try to see from a different day
Retrace my steps to rewind the tape deck ,the bed
If I make that right I'd forget about us leave

Got a little bit of lost in the love
'Cause I've given it given it all
Just a little bit lost in the love
Now I'm waiting to be found
Got a little bit of lost in the love
Now I'm giving up giving it up
Just a little bit lost in the love
But I'm ready to be found

Holding on to the stream resist the thing that will keep me sane
But I could altise no surprise that I win or stray
I didn't start up at the start but I hope by the end you're my friend
We can search this maze join the dots to help it mend

Got a little bit of lost in the love
'Cause I've given it given it all
Just a little bit lost in the love
Now I'm waiting to be found
Got a little bit of lost in the love
Now I'm giving up giving it up
Just a little bit lost in the love
But I'm ready to be found

You gotta follow the sound
And you can find me there
To help me out of my head

Got a little bit of lost in the love
'Cause I've given it given it all
Just a little bit lost in the love
Now I'm waiting to be found
Got a little bit of lost in the love
Now I'm giving up giving it up
Just a little bit lost in the love
But I'm ready to be found
