

## Blind Side

Skyharbor

I am just a lost soul  
Searching for the sun  
Will it wait for us  
Drift away from us  
I'm another cold soul  
Reaching for the light  
Bound by these chains I cannot break

Drain me empty  
Buried in deep

Leeches  
Liars  
Blindside  
Karma  
Rise, leave them all behind  
Carnivores swallowing the earth

I won't be a lost soul (not another lost soul)  
Casualty of broken dreams (in my dreams)  
Forfeit all you know  
In cable streams  
Floating vessels on the wire  
They'll speak for us  
Reflecting us

Distorting the truth beneath the veil  
Drag deceit until the skin starts to bleed  
Is it hard to see with two faces  
Does your tongue get tied  
Talking from the sides of your mouth  
The truth can only bend so far

Screens cracked  
Push back  
Breathe new life

Drain me empty  
Buried in deep

Leeches  
Liars  
Blindside  
Karma  
Rise, leave them all behind  
Carnivores swallowing the earth

(Find a world within the stars  
Rebuild autonomy)

Blind us  
Bind us  
Take it all  
Eyes of wisdom  
See it all  
I am just a slave to you  
I won't give you what you want

...
