

## Disengage / Evacuate

Skyharbor

If time could mend my heart  
I'd find a way out from the dark  
Decaying, betraying  
Where will I place the blame?  
Should I lose my way?  
Relenting, lamenting?

Hurled outside myself  
Watching my whole world break  
Questioning reality  
If I can find a way to escape the rain  
And leave us forsaken

Floating away  
You're running away from  
You're pushing away far from me

Solace disappearing  
But you can't see that you're killing me  
This [?] I am screaming  
But you can't seem to stop killing me

But I am not a saint  
For thinking every world I wrote  
Tracing every part, replaying it slow

I see you tightening the noose in your eyes  
Watch you bring an end to this life  
Cutting me down

Solace disappearing  
But you can't see that you're killing me  
This [?] I am screaming  
But you can't seem to stop killing me

Pieces of my soul  
Pulling apart again, slow  
Fragment in shadow, my thoughts  
Left bleeding and broken  
I hope I'll find out  
What it means to be free  
Life on, and on, and on  
Come to realize we're leaving in our dreams  
Could this really be the end of me?  
So I'll just draw my last breath

The darkness in you  
Consuming within, and again, and again  
I stand still  
Left here encased in this small [?]  
You're so cold, you're so cold  
Just don't come and be honest, below  
Sink down into this hole  
You're so cold, you're so cold  
Just don't come and be honest, below  
So say it  
Say it

But now you're alone
