

## Illusion: Celestial

Skyharbor

I'll never know how something so alive and fine  
Can see behind the sun  
I'll never know how someone so beautiful  
Could pine away

Cry... We're free again  
Celestial

I don't know why you can't fight me, resist, abide by fists  
Back to back and it's time you knew now that this is all you ha  
d

When we are rejected we lose our way, we're terrified  
When we are protected the stars shine light into our lives

I lost my way, I'm fine  
I lost my way  
I lost my way  
I don't know and I don't care

Cry... We're free again  
Celestial

I fell down undiscovered. I'm broken  
Waiting for this endless day to come  
Please don't turn off the lights we're having the time of our l  
ives

I don't know why you can't fight me, resist, abide by fists  
Back to back and it's time you knew now that this is all you ha  
d

As life burns out  
Age old earth rolls on  
Lights fade out  
Away

As daylight dies the world will turn it's back on you  
As daylight dies the stars will shine for you  
Don't want to feel like this anymore  
Don't want to lose my way again
