Skyharbor

Sleep... stay asleep  
Sleep... stay asleep

My soul yearns for one last look at you  
Before I leave you here to be hidden within idyllic peace  
It's the perfect memory and I keep it close to me

Bound with wire  
Cut me deep into the seams  
Flow the colours of the queen  
Oh I live like I'm the only one, the fragile one that fights to  
survive  
Crown the liar  
Buried deep beneath the cross  
Tainted hearts forever lost

Sweet treasure, let go of all you know  
Sweet treasure, you are the one, you are my only  
True pleasure

Now watch me burn it all down, parasite town  
Far down below it's a fight for survival  
So scared as I am of you  
I'll burn it all down, parasite town  
I call this survival

Now watch me burn it all down, parasite town  
Far down below it's a fight for survival  
So scared as I am of you  
I'll burn it all down, parasite town  
I call this survival  
So scared as I am of you, parasite town
