

# Love's Not Good Enough

Skyhooks

I'd like to be in love but love's not good enough  
Good enough a reason to be in love these days  
There's too much goin' on, there's too much that's goin' wrong  
Goin' wrong to be in love these days

Well, the girls in front are on mandrax  
They're all dancin' in three-quarter time  
Waitin' for the next band to touch down  
And buy them a whiskey and lime  
The boys up the back they're all drinking beer  
They don't know what to do with their hands  
They'd like to grab the girl with the mink eyebrows  
But they're too nervous to make any plans

They like to be in love but love's not good enough  
Good enough a reason to be in love these days  
Everyone's got high ideals they know exactly how it feels  
To be the one to turn the wheels these days

An old sweetheart is cryin' in her vodka  
Waitin' six months for a smile  
From a man who's too busy with his new-found fame  
He's playin' it cool for a while  
A new lover says come on over here  
Another wants a date right now  
For some double talk and cigarettes  
Before the night turns sour

They'd like to be in love but love's just not enough  
Not enough to be in love these days  
There's too much goin' on, there's too much that's goin' wrong  
Goin' wrong to be in love these days

You said that you wanted me  
Whenever you were free  
You handed me your front door key  
While I analyzed your strategy  
Offered me some lemon tea  
Questioned my fidelity  
Bit my ear and felt my knee  
While I gave you the third degree

'Cause love's not good enough, love's not good enough  
Love's not good enough  
Love's not good enough good enough good enough...

We all want different things  
But we all want to live like kings  
We all want the best there is these days  
Yeah, it's just too tough  
Yeah, it gets so rough  
'Cause love's not good enough these days
