

# White Skin and Black Sheets

Skyhooks

She said to me: 'Won't you come back to my place tonight?'  
'I got Deep Throat on the video, we can listen to the radio tonight'  
'I like your eyes and I like your smile, I'd really like to stay with you awhile'  
'We can play chess and make love under my strobe light'

Well, I could've said no but, yes, I said yes  
She locked the door and stepped out of her dress  
And in the heat of the moment in the moment of heat  
With her hair so long and her mouth so sweet

White skin and black sheets

(White skin and black sheets)

In the morning we had coffee on the balcony  
We played chess and watched the clouds roll over the sea  
I got ready to leave but she held my wrist  
And gave me something that I could not resist

White skin and black sheets  
(White skin and black sheets)  
(White skin and black sheets)  
(White skin and black sheets)

Everynight I have these dreams, I get these images comin' in on the beam  
I see these pictures that I'll never forget, I remember moments that I'll never regret  
In the heat of the moment, in the moment of heat  
With her hair so long and her mouth so sweet
