

# Haunted

Skylar Grey

They woke me up again  
It's gonna be another restless sleep tonight  
The ghosts inside my head  
Are moving furniture and eating dynamite  
They're moving furniture and eating dynamite

Take me up the rill  
To haunted hill  
Past the floating bridge  
The orphanage  
Where the spirits fly  
And never die  
Where the spirits fly  
And never die

There, it's always cold  
Well I've got a fever and I'd like to make it snow  
That's why I feel so old  
All these spectres need a better place to go  
All these spectres need a better place to go

We could get a chill  
On haunted hill  
Where the saddest parts  
Inside my heart  
Can live in the past  
Leave me at last  
Can live in the past  
Leave me at last

Leave me with goodwill  
On haunted hill  
Past the floating bridge  
The orphanage  
Where the spirits fly  
And never die  
Where the spirits fly  
And never die
