

## Loop

Skylar Grey

Gonna be the best thing that you ever had  
Gonna be the worst thing, I will make you mad

Been tryin' to find a reason, a reason for this life  
One day we're here, someday we die  
Everything else in between, we're just passin' the time  
Reachin' for a dream, I don't even know why  
Livin' in fear 'til I close my eyes  
Then I wake up everyday

And I'm right back where I started  
I can't do this, I'm stuck in a loop  
Can't keep goin' through this  
And I'm right back where I started  
I can't do this over and over  
Over and over  
Over and over again

Keep thinkin' I got somewhere and then I fall behind  
It's crystal clear and then I go blind  
Every night I'm havin' three or four glasses of wine  
Doin' anything just to get through alright  
Drownin' my fears 'til I open my eyes

And I'm right back where I started  
I can't do this, I'm stuck in a loop  
Can't keep goin' through this  
And I'm right back where I started  
I can't do this over and over  
Over and over  
Over and over  
And I'm right back where I started  
I can't do this, I'm stuck in a loop  
Can't keep goin' through this  
And I'm right back where I started  
I can't do this over and over  
Over and over  
Over and over again

Gonna be the best thing that you ever had  
Gonna be the worst thing, I will make you mad
