

Make It Through The Day

Skylar Grey

I've been awake, you've been asleep
I'm in my head, you're in a dream
Smoking a blunt, stuck in the mud
Thinking 'bout pulling a gun
And turning it on myself
It's sitting right there up on the shelf
That's one way to get me out this earth
I can hardly breathe
'Cause this shit still heavy

And I don't feel like I'm gonna make it through the day
Don't feel like I'm gonna make it through the day
I remind myself I only gotta make it till tomorrow
Make it till tomorrow

Can I make it through the day?
Make it through the day
Can I make it through the day?

One foot in front of the other, yeah
Took this one step at a time, yeah yeah
Keep your head down, don't you dare look off
'Cause you'll see the mountain and wanna just give up

I'ma figure this out but I don't know what I done wrong
I'm sticking it out but I can see the road is lost
You know
It's murder to think about it
It's murder to think about it
Break me down and I don't wanna be here
I don't wanna be here
Ooh, I don't wanna be here, no
I don't wanna be

When I don't feel like I'm gonna make it through the day
Don't feel like I'm gonna make it through the day
I remind myself I only gotta make it till tomorrow
Make it till tomorrow

Can I make it through the day?
Make it through the day
Can I make it through the day?
