

# Babe

Skylar Stecker

You should be my babe  
Don't you wanna be my babe  
Put it up on display you know

Bet she don't have your back like me  
Baby I'm a rider, rider  
Everything you want I'll be everything you need  
Be your love provider, not for hire

Put that flavor in your sauce  
I make everything better  
I put you on to a brand new level  
I hold you know, you know it's forever  
Baby we could do whatever's clever

Cus don't you know that I made space for you  
So pull up on me baby  
In your black Mercedes  
Where u been cus we're long overdue  
And I ain't tryna look crazy  
So tell me something good baby

You should be my babe  
Don't you wanna be my babe  
Put it up on display you know  
You should be my babe  
Don't you wanna be my babe  
You could be my babe oh

You could be my baby, baby, baby, baby, baby  
Call me when you want, when you need me  
This love is too hot for TV  
You know I'm the truth just believe me  
Phones on airplane mode  
And you got me feelin' like woah  
I ain't tryna wait no more

Cus don't you know that I made space for you  
So pull up on me baby  
In your black Mercedes  
Where u been cus we're long overdue  
And I ain't tryna look crazy  
So tell me something good baby

You should be my babe  
Don't you wanna be my babe  
Put it up on display you know  
You should be my babe
