

Fire

Skylar Stecker

Ooh you got that tempo that I like
You hypnotize me with that bassline
Ooh falling in love on the dance floor
And you, you keep me rocking like all night
All night

Now I don't care where it goes
Cause I'm in paradise all night long
Ooh just turn it up and let go
Oh baby tonight we can light it up

Just don't stop the fire
Please don't stop the flame
The music takes me higher
Don't stop let it play
Ooh don't stop the fire
Please don't stop the flame
Please don't stop the fire
Please don't stop the fire
Baby just let it blaze

Oh your melody got me melting
You got me stuck on repeat I can't help it
Ooh I wanna get caught in your heatwave
And ooh turn that bass up to the ceiling
Oh baby

Now I don't care where it goes
Cause I'm in paradise all night long
Ooh just turn it up and let go
Oh baby tonight we can light it up

Just don't stop the fire
Please don't stop the flame
The music takes me higher
Don't stop let it play
Ooh don't stop the fire
Please don't stop the flame
Please don't stop the fire
Please don't stop the fire
Baby just let it blaze

Wildfire
Wanna feel your energy I'm so high
Burning up with fever rocking all night
You know how to make me come alive
I want ya
I need ya
Keep making the party explode

Just don't stop the fire
Please don't stop the flame
The music takes me higher
Don't stop let it play
Ooh don't stop the fire
Please don't stop the flame
Please don't stop the fire

Please don't stop the fire
Baby just let it blaze
