

Firecracker

Skylar Stecker

I'm losing all control
I'm seeing stars of gold
Time's moving way too slow
Don't know which way to go

I'm aiming for the sky
Take off and watch me fly
I'm gonna burn so bright
10,000 fireflies

Ricochet, it's too late
I'm floating up into space
I'm falling fast with no trace
The sky lights up with my name
Hey

I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
B-b-bang bang
When I do my dang thang

Ooooooh
You know I'm ready, let's
Goooooo
And I'm about to explode
Like a firecracker
B-b-bang bang
When I do my dang thang

I'm bout to turn it up
Hot way, too hot to touch
This might be dangerous
Cause I'm a little bit too much

Fall like a shooting star
Aiming right at your heart
I know right where you are
Can't hide behind the dark

Ricochet, it's too late
I'm floating up into space
I'm falling fast with no trace
The sky lights up with my name
Hey

I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
B-b-bang bang
When I do my dang thang

Ooooooh
You know I'm ready, let's
Goooooo
And I'm about to explode
Like a firecracker
B-b-bang bang
When I do my dang thang

Bout to burn it up
Till the flames get higher
We can set it off
Till the rooms on fire
Better back it up
I'm a real live wire
I'ma take it higher and higher

Ooooooh
Bang bang
Ooooooh
Bang bang
Ooooooh
Bang bang
B-b-bang bang
When I do my dang thang

I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
I'ma I'ma firecracker
Bang bang
B-b-bang bang
When I do my dang thang

Ooooooh
You know I'm ready, let's
Goooooo
And I'm about to explode
Like a firecracker
B-b-bang bang
When I do my dang thang
