Distance
I be hating all this distance
Wondering
Who stay on your mental
Do you miss it when you with your homies
On the weekend and you chilling
Am I the one mention
Like I mention you
Now you riding with your hoodie on
So into you
Can't get you out my head baby
It's sunny every day
But every night it always rains
I hope we on the same page

Damn I know you got it like that
But you got me right here so I'll try
Just know I got your front and your back
So don't forget it on game day
Damn I know you got it like that
But you got me right here so I'll try
Just know I got your front and your back
So don't forget it on game day

Tell me you need me
I'm on the way
Hop on this redeye
Just to get close to you
Baby I'll pull up
Get right in your face
I'll give you that real shit
Love's gon' make you feel, boy

I need you up on my body
This timing ain't enough
I be fiending for your touch
There's nothing like your warm body
And I hope we're both on the same page

Damn I know you got it like that
But you got me right here so I'll try
Just know I got your front and your back
So don't forget it on game day
Damn I know you got it like that
But you got me right here so I'll try
Just know I got your front and your back
So don't forget it on game day

Go boy, but just don't go too far Baby don't you go too Go boy, but just don't go too far Don't go, oh, yeah
