

# hate that for you

Skylar Stecker

You know me, I know you  
You holdin' back on the little things  
Boy, don't you skip that  
I don't for you  
Ain't worried, he knows me  
Ain't hurtin' yet, but I been keeping track  
Boy, don't you skip that  
I don't for you (ooh)

Say you'll never leave  
Are you here, are you here  
Come back (mmm)  
And if we're building it  
If I say, will we stay intact  
(Ooh, I)  
I'm caving, too soon  
Hurts me that I have to ask you  
But I know if I don't you won't know and I hate that for you  
Impatient, with you  
Been here before  
Why you make me ask you  
But I know if I don't you won't know and I hate that for you

You know it, I know it  
Those roses, a last minute thing  
How could you miss that  
I thought you knew (no, I've been)  
Trying to fall in love with the language we speak  
I give but you take from me (you take from me)  
Oh, how could you miss that (miss that)  
I thought I knew

Ooh, say you'll never leave  
Are you here, are you here (are you here, do you hear me, baby)  
Come back (mmm)  
And if we're building it  
If I say will we stay intact (mmm)  
I'm caving (caving), too soon (too soon)  
Hurts me that I have to ask you  
But I know if I don't you won't know and I hate that for you (I hate  
that for you)  
I'm impatient, with you (ooh, with you)  
Been here before  
Why you make me ask you (why you make me ask you)  
But I know if I don't you won't know and I hate that for you (noo)  
Ooh... (oh baby, I need you, baby, I want you, baby, I need you)

Baby no, you don't know, yea
