Let It Pour

Skylar Stecker

Is it alright
If I tell you some of my secrets
I'm in over my head right now
Think they're gonna weigh me down
Cause I don't like
Holdin' on to all of these feelings
And I just need to let this out
Let this out, no

Conversations I have with myself
A lot in here that I'm dying to tell
Keeping quiet cause it's all I know
Mm oh, push away but it keeps coming back
Can't contain the emotions I have
In it now, gotta let it go

When it rains let it pour
Getting lost in the waves
When it rains let it pour
Let it wash away, let it wash away
Let it wash away, let it wash away

Some nights
Feels good to not have to fight it
Loose a little self control
Even if I get exposed
And it's alright
Oh at least you can say that I'm trying
Wanna get lost in the storm
In the storm, no

Conversations I have with myself
A lot in here that I'm dying to tell
Keeping quiet cause it's all I know
Mm oh, push away but it keeps coming back
Can't contain the emotions I have
In it now, gotta let it go

When it rains let it pour
Getting lost in the waves
When it rains let it pour
Let it wash away, let it wash away
Let it wash away, let it wash away

Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)

When it rains let it pour
Getting lost in the waves

When it rains let it pour

Getting lost in the waves
When it rains let it pour
Let it wash away, let it wash away
Let it wash away, let it wash away

Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
Let it rain, let it rain, let it rain, let it rain, let it rain
(Let it wash away, let it wash away)
