

Locked In

Skylar Stecker

Tell me what's unfair
I turn around you right there
Kinda thinking if I want to
Get caught up, up in us and if I want you
Told you once I swear
Blame it all on you care
Kinda wishing that you won't do
Do to me all the things you said you won't do

Asking how your friends knew
Got that follow request now they my friends too
Why you jumping the fence ain't falling with you
Another missed call and they always an issue

Got me like woo
Who you with? Where you at? What you doing?
Oh My bad didn't know that you locked it
Oh my bad didn't know that you're locked in
Locked in

Got me like Hey
Why you judging? Boy get off my case
Oh My bad didn't know that you locked it
Oh my bad didn't know that you're locked in
Locked in

I keep dropping these hints
When I pull back you pull in
Kinda thinking if I want to
Give you me, everything you said you want to

Asking how your friends knew
Got that follow request now they my friends too
Why you jumping the fence ain't falling with you
Another missed call and they always an issue

Got me like woo
Who you with? Where you at? What you doing?
Oh My bad didn't know that you locked it
Oh my bad didn't know that you're locked in
Locked in

Got me like hey
Why you judging? Boy get off my case
Oh My bad didn't know that you locked it
Oh my bad didn't know that you're locked in
Locked in
