

Never Enough

Skylar Stecker

So I hear you going out with my friends, didn't think you'd get to me
You're way too confident, lemme help you ride for free

I showed you everything, yeah could've been so sweet
Like it was innocent, now you get to watch me leave

Cause you had the world, and you broke your word
When will you learn?

I gave my time, it's never enough, it's never enough
You wasted mine, it's never enough, it's never enough
It's time I took my heart and get what I deserve
I'm gonna give you up, it's never enough, it's never enough

They say that the grass is green
Up there on the other side
Don't matter now how it feels
You still like to change your mind
All glitter isn't gold
Even if it caught your eye
You had a diamond
Standing right by your side

Cause you had the world and you broke your word
When will you learn?

I gave my time, it's never enough, it's never enough
You wasted mine, it's never enough, it's never enough
It's time I took my heart and get what I deserve
I'm gonna give you up, it's never enough, never enough

Can't get back what you don't put in
I gave you everything
Can't get back what you don't put in
I gave you everything
Can't get back what you don't put in
I gave you everything
Can't get back what you don't put in
I gave you everything

I gave my time, it's never enough, never enough
You wasted mine, it's never enough, never enough
It's time I took my heart and get what I deserve
Gonna give you up
It's never enough, never enough
